Heritage College
Feb 2007- Oct 2008

TECHNICAL SKILLS

PROFESSIONAL

HTML | CSS | JavaScript

AJAX | JSON | JQuery

Node.js | MySQL | TDD

Handlebars | Git |

Restful APIs | Server Side APIs

Bootstrap | UIKit | Bulma

Object-Oriented Programming

PROFILE

Hello, I'm Rubi, I enjoy using my newly acquired technical skills to develop creative and innovative applications. I am a fast learner with a strong desire to learn even more skills, I am self-motivated and a team player. Let's build something together!

PROJECTS

TECHNICALLY SPEAKING BLOG

Built with: JS | Handlebars | Node.js | REST APIs | MySQL |UIKit
This application uses Handlebars.js as a template to render pages. This application also uses node packages to authenticate and hash email and passwords.
GitHub URL: https://github.com/rubiocode/Technically-Speaking
Deployed URL: https://stark-wave-96695.herokuapp.com

TEAM PROFILE GENERATOR

Built with: JS | Node .js
This is a command line application which will prompt the user for information about their team and generate a nicely formatted and responsive HTML page displaying a roster of all their team members.
GitHub URL: https://github.com/rubiocode/Team-Profile-Generator
Deployed URL: https://github.com/rubiocode/Team-Profile-Generator

WEATHER DASHBOARD

Built with: JS | Server Side APIs | JSON | Bootstrap
This is a simple and easy to use application to check the local weather. It displays UV-index, current weather, five day forecast, and also saves previous city entries for easy access.
